WORK EXPERIENCE

Sr. Front-End Engineer

WebstaurantStore | Aug 2022 - present

- Built pixel-perfect responsive React apps using Figma
- Communicated with designers and developers to build performant and intuitive admin dashboards in TypeScript and React Ant Design
- Debugged style issues, created CSS animations, and enforced new coding standards
- Assisted developer growth with 1:1 code reviews sessions and mentoring

UI/UX Lead

3C Institute | Feb 2019 - 2022

- Built and maintained in-house React component library
- Led front-end development on the company's most complex and demanding application at impressive pace
- Established and enforced new UI design patterns

Data Visualization Developer

Trill Financial | Oct 2018 - Feb 2019

- Translated a jQuery prototype into a React app
- Built app with JWT authentication and REST API
- Created high-fidelity mockups

Student Software Engineer

Berea College | Jan 2016 - May 2018

- Implemented open source software data-analytics tool that decreased in-house development time by 6 months

Web Developer Intern

Punchmark | Summer 2016

- Built automated SMS notification system using Twilio API
- Created a PHP widget to display Instagram photos using OAuth API token flow
